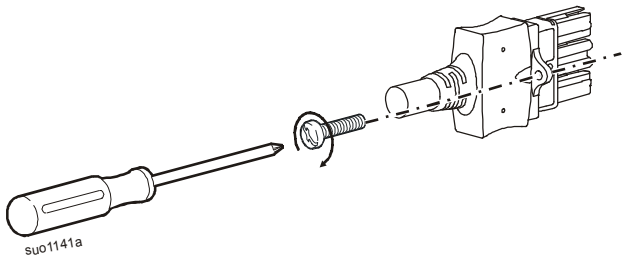
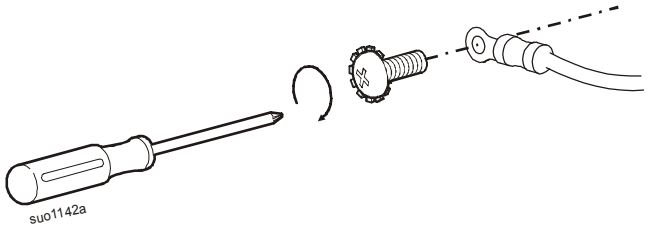
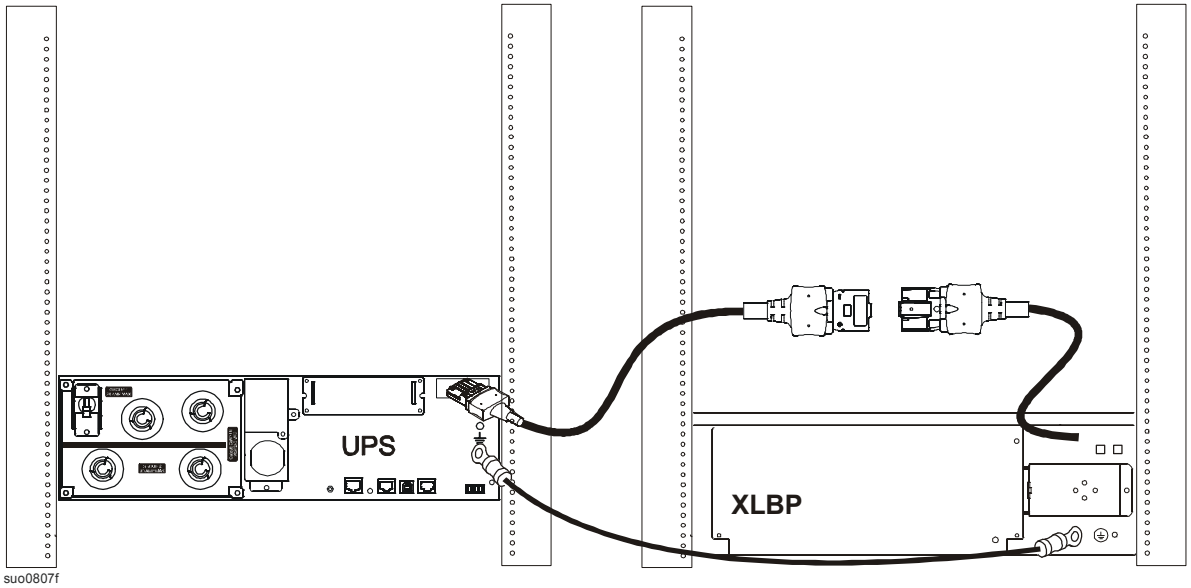
Five meter extension cable connector



Ground cable

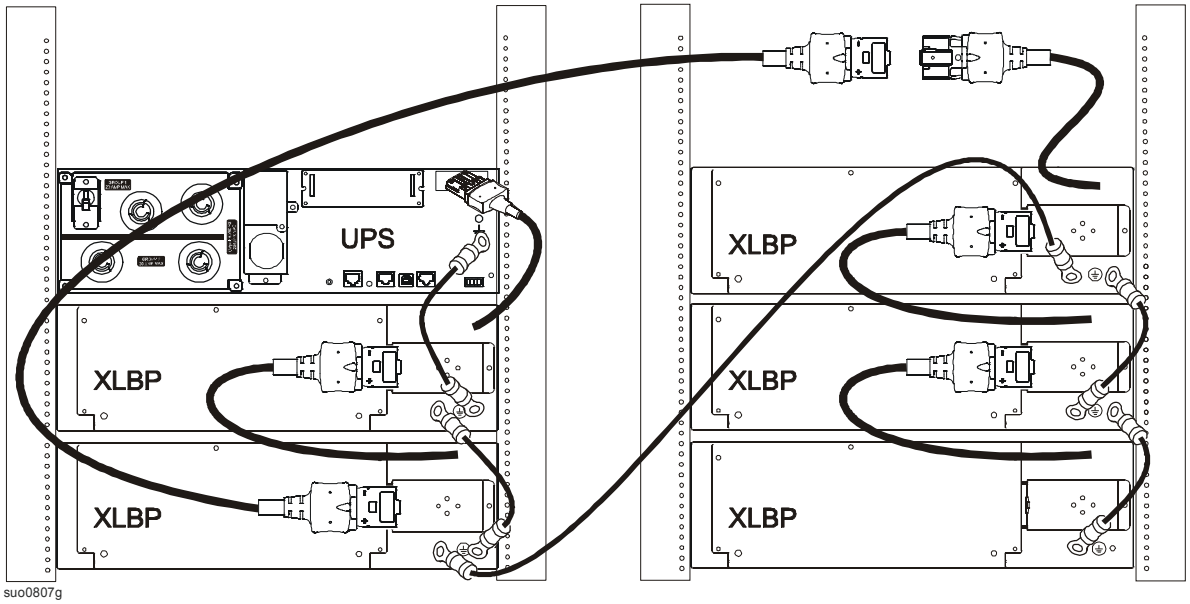


SRT002 to connect UPS and XLBP(s) of SRT5K/SRT6K models



suo0807f

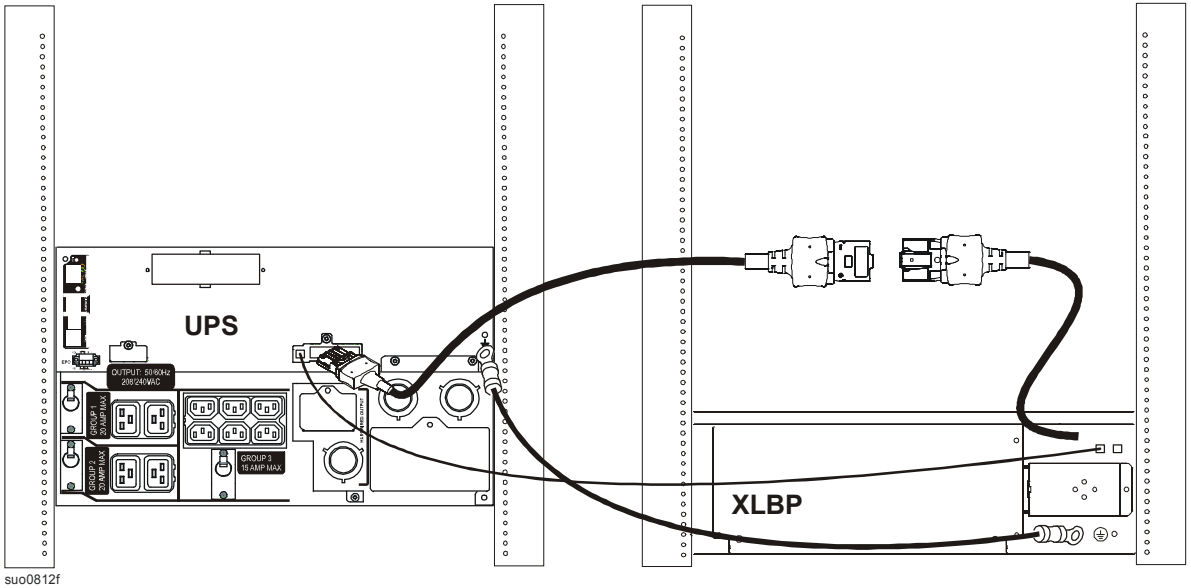
One UPS and one external battery pack and external battery pack battery/communications extension cable connection. See “Connections” on page 2 to secure the five meter battery/communications extension cable connector to UPS/XLBP and secure the ground cable connections.



suo0807g

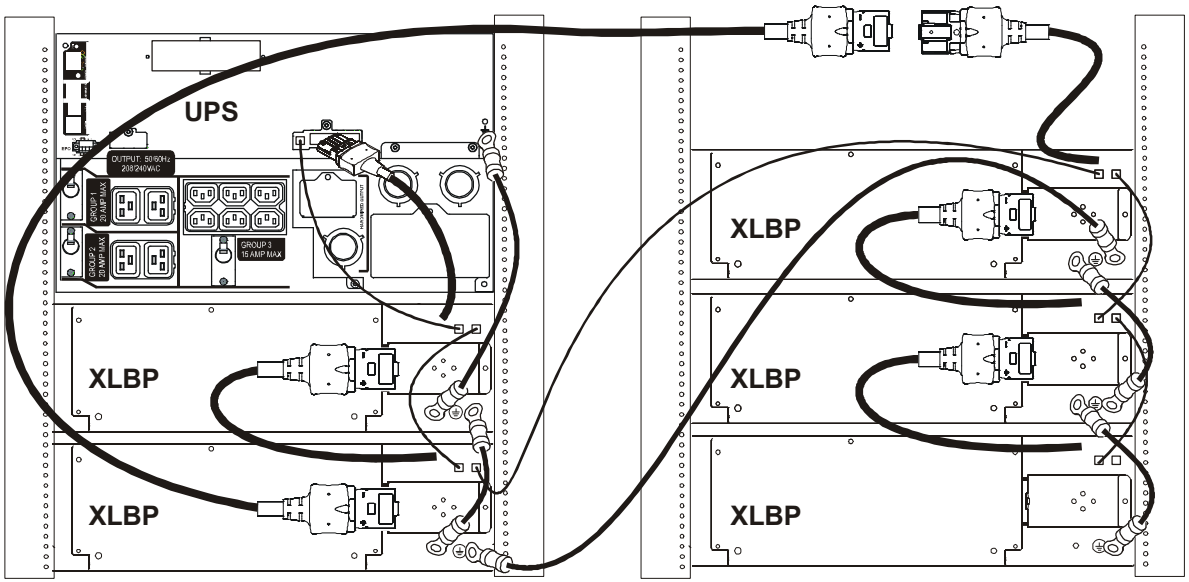
One UPS and five external battery packs and external battery pack battery/communications extension cable connection. See “Connections” on page 2 to secure the five meter battery/communications extension cable connector to UPS/XLBP and secure the ground cable connections.

SRT003 to connect UPS and XLBP(s) of SRT8K/SRT10K models



suo0812f

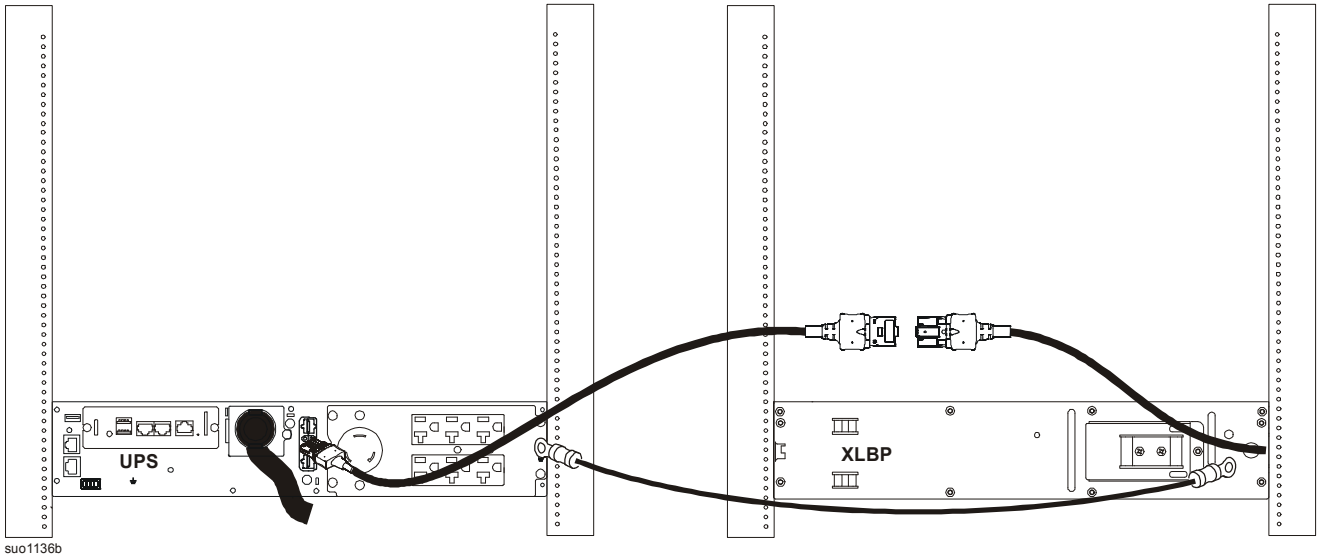
One UPS and one external battery pack and external battery pack extension cable connection. See “Connections” on page 2 to secure the five meter extension cable connector to UPS/XLBP and secure the ground cable connections.Connect the communication cable.



suo0812e

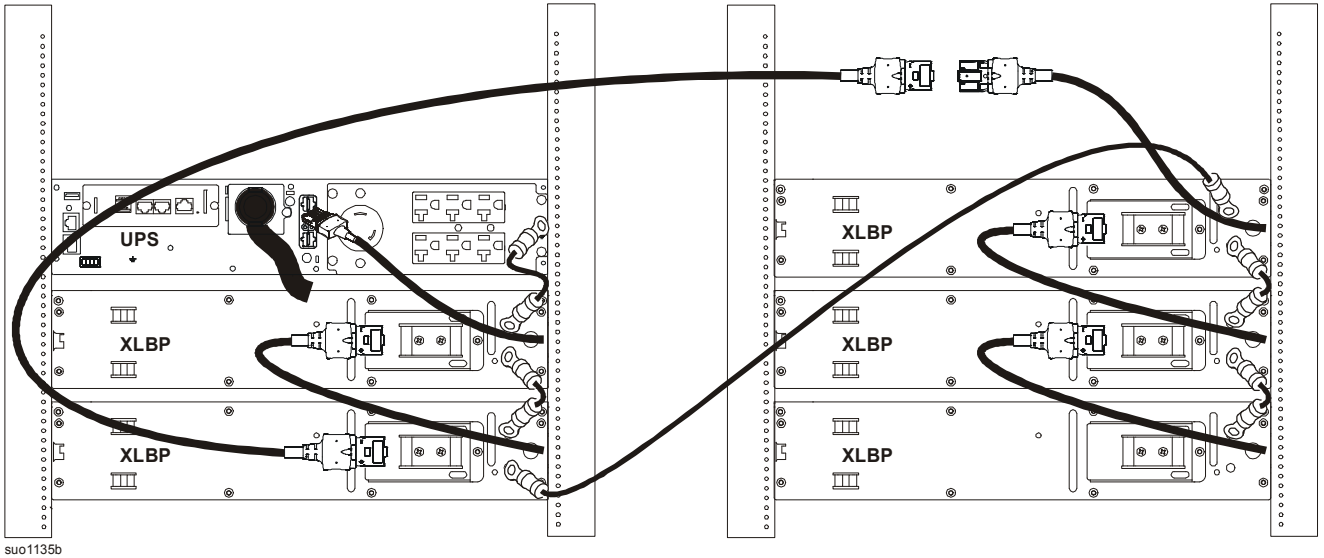
One UPS and five external battery packs and external battery pack extension cable connection. See “Connections” on page 2 to secure the five meter extension cable connector to UPS/XLBP and secure the ground cable connections. Connect the communication cables.

SRT009 to connect UPS and XLBP(s) of SRT2200 models



suo1136b

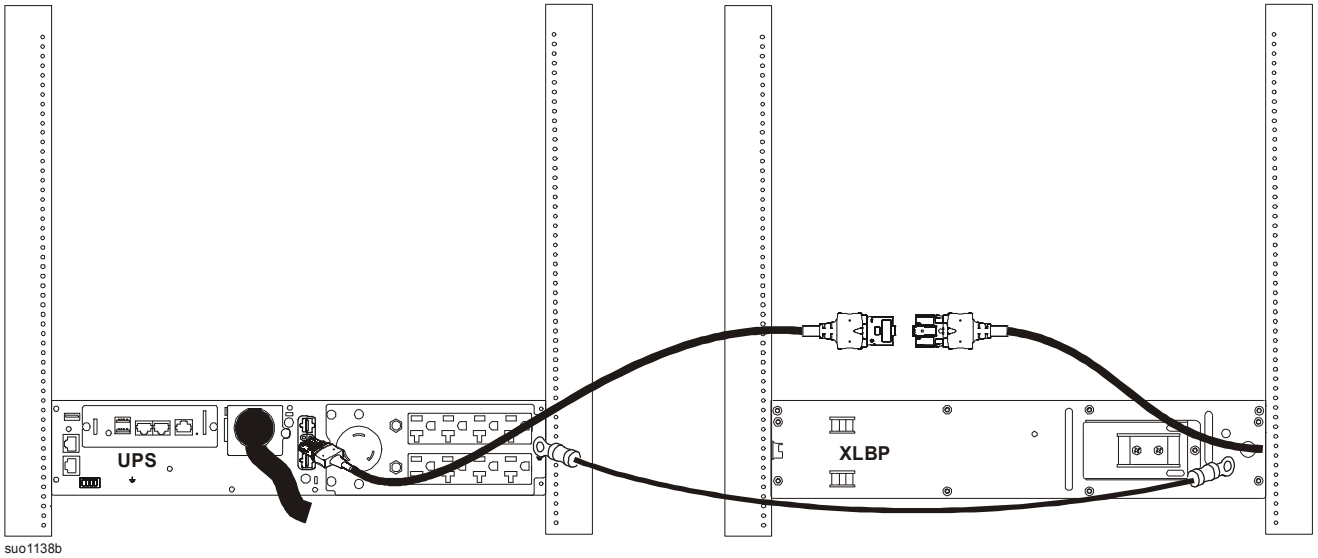
One UPS and one external battery pack and external battery pack battery/communications extension cable connection. See “Connections” on page 2 to secure the five meter battery/communications extension cable connector to UPS/XLBP and secure the ground cable connections.



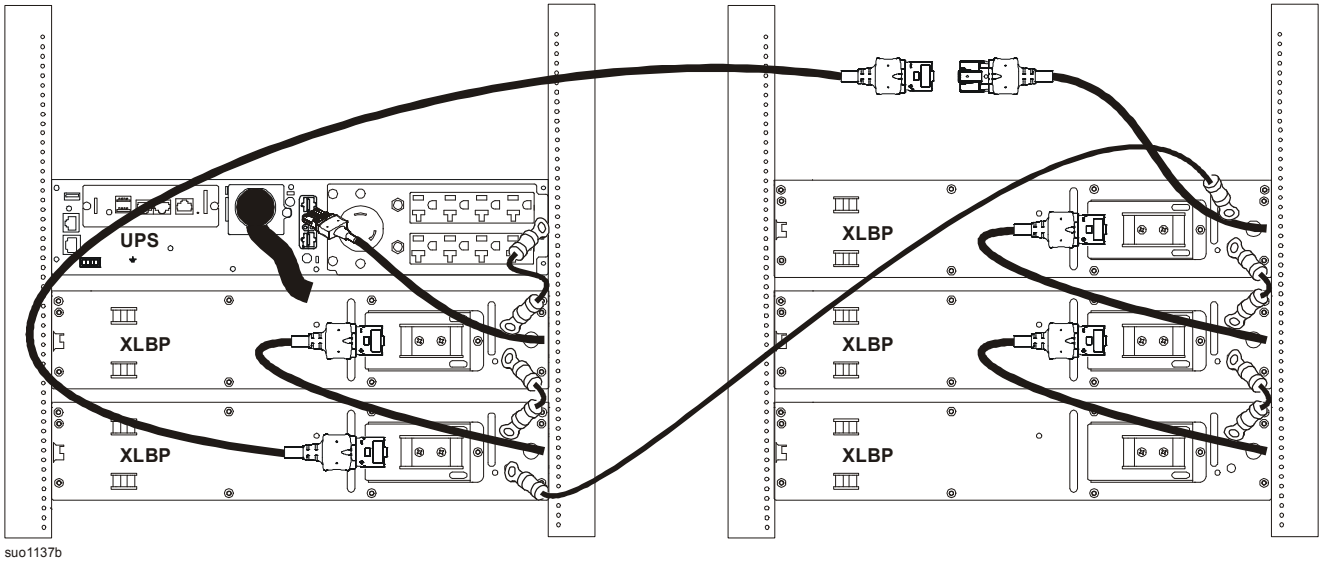
suo1135b

One UPS and five external battery packs and external battery pack battery/communications extension cable connection. See “Connections” on page 2 to secure the five meter battery/communications extension cable connector to UPS/XLBP and secure the ground cable connections.

SRT010 to connect UPS and XLBP(s) of SRT3000 models

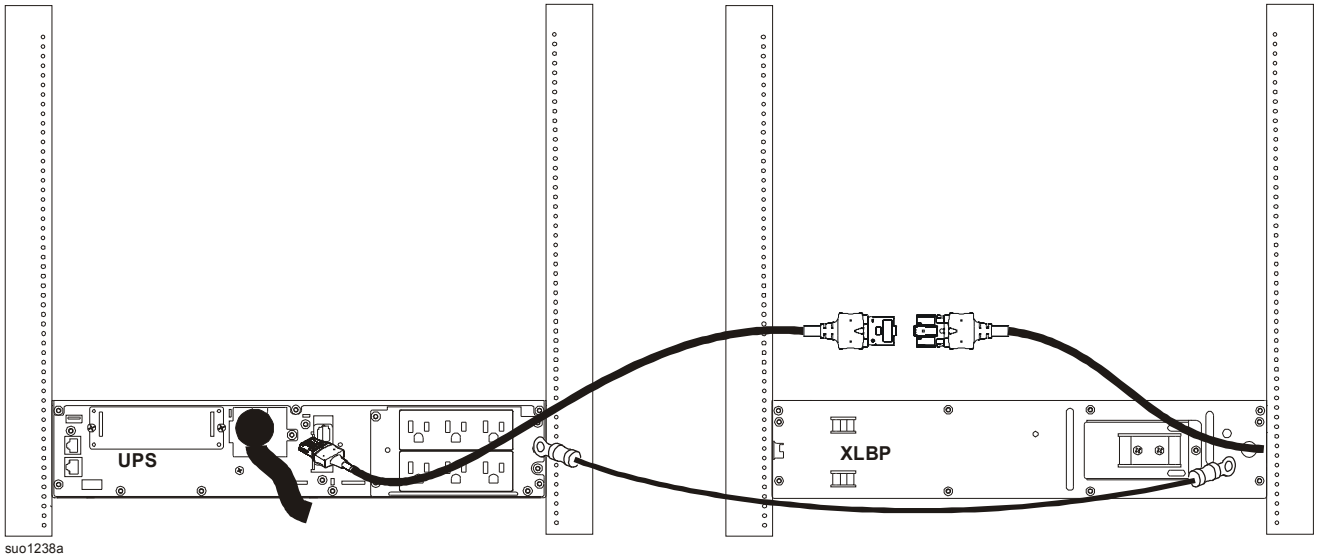


One UPS and one external battery pack and external battery pack battery/communications extension cable connection. See “Connections” on page 2 to secure the five meter battery/communications extension cable connector to UPS/XLBP and secure the ground cable connections.

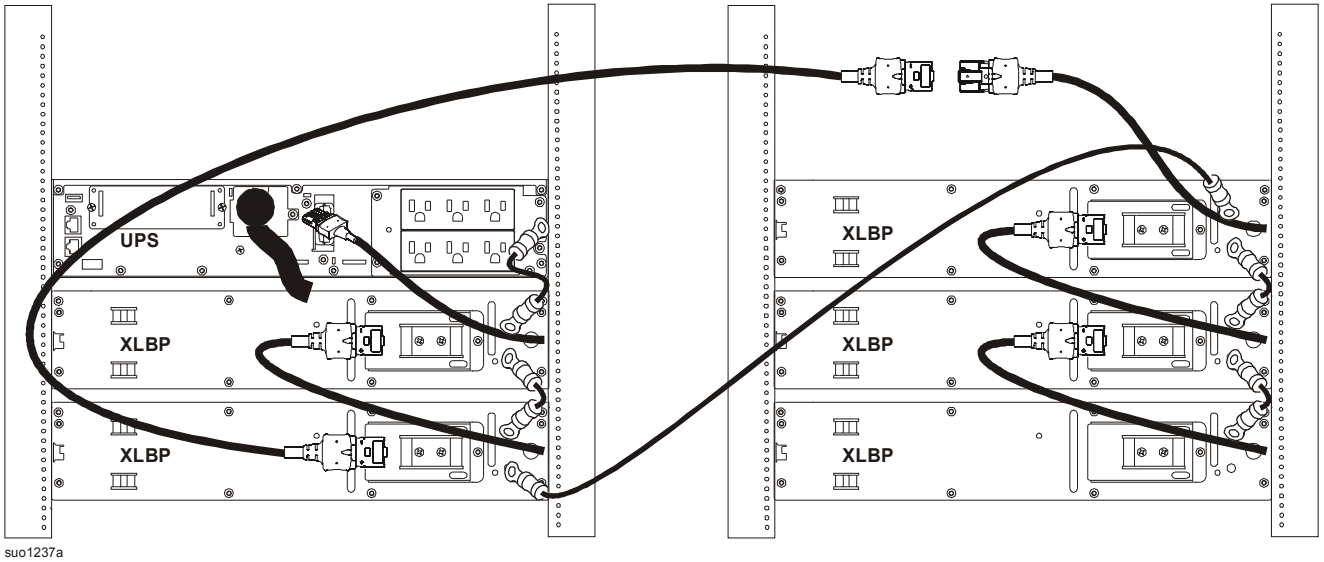


One UPS and five external battery packs and external battery pack battery/communications extension cable connection. See “Connections” on page 2 to secure the five meter battery/communications extension cable connector to UPS/XLBP and secure the ground cable connections.

SRT013 to connect UPS and XLBP(s) of SRT1000/SRT1500 models



One UPS and one external battery pack and external battery pack battery/communications extension cable connection. See “Connections” on page 2 to secure the five meter battery/communications extension cable connector to UPS/XLBP and secure the ground cable connections.



One UPS and five external battery packs and external battery pack battery/communications extension cable connection. See “Connections” on page 2 to secure the five meter battery/communications extension cable connector to UPS/XLBP and secure the ground cable connections.
